

Markierungswagen 4-Rad Off-Road Marking applicator 4-wheel off-road

General Description

Areas of application:	Marking applicator for convenient and accurate spray marking using 1 or 2 cans, thus capable of covering in one pass, even with yellow lines. The spraying unit is also easy to mount on the side of the marking applicator, e.g. for marking lines directly adjacent to a structure. Bracket for four spare cans. Sturdy construction.
Product features:	Quick adjustment for various line widths. The marking applicator is easy to adapt to suit left- or right-handed operators. Large pneumatic wheels.
